Description of Training Program

The Maintenance Technician pathway is for students who wants to concentrate on the mechanical aspects of the contemporary industry. Courses in this program include Rigging/Robots Mechanical, Fanuc Robots and Mechanical system which is the backbone of modern industry. This program will include the maintenance Technician to Fluid Power and Pipefitting/Tube Bending skills that are needed in the Maintenance process. These courses designed to provide students the needed expertise to install, troubleshoot and repair these essential mechanisms. The Manufacturing Essentials program is a prerequisite to entering this program. This prerequisite may be waived based on experience or successful completion of a hands-on assessment in these areas.
