Training Program:	MEDICAL ASSISTANT		
Training Location:	27301 Dequindre Rd. Ste. 103 Madison Heights, MI 48071	Clinical Location: <i>If Applicable</i>	Same as Training Location
Phone Number:	414-935-2668	Website:	cuttingedgestaffingwi.com

Description of Training Program:

The course will focus on skill development in the performance of a variety of blood collection methods using proper techniques and standard precautions. Blood collection procedures performed included vacuum collection devices, syringes, capillary skin puncture, butterfly needles and specimen collection on adults. Collection of specimens from children and infants is discussed. Emphasis will be placed on infection prevention, patient identifications, specimen labeling, quality assurance, specimen handling, processing, accessioning, professionalism, and ethics. Students will learn the theory and principles of CLIA waived laboratory tests and perform the test in the student laboratory.

Students will also learn how to closely assist providers in numerous exams and procedures; clinical medical assistants are a crucial part of the healthcare industry. From taking vital signs, to administering injections and medications, and even performing EKG or other essential laboratory procedures, the medical assistant is often the first and last person a patient interacts with, making a lasting impact on the patient experience. In our training program, participants learn about core elements of medical assisting, including Foundational Knowledge and Basic Science, Anatomy and Physiology, Clinical Patient Care (taking vital signs, performing EKG/phlebotomy), Patient Care Coordination and Education and Administrative Assisting.
