Phone Number:	1-844-218-2494	Website:	www.Skilltrade.com

Description of Training Program:

The Skilltrade Patient Care Technician – Hybrid Program prepares students for entry-level patient care support roles through online asynchronous instruction combined with scheduled in-person laboratory sessions. Students learn healthcare systems, professional communication, medical terminology, infection prevention and control, patient safety, vital signs, electrocardiography (EKG), phlebotomy and specimen collection, activities of daily living (ADLs), rehabilitative support, documentation practices, and professional standards. Instruction includes structured digital lessons, guided demonstrations, scenario-based learning, certification preparation, assessments, and supervised in-person labs (infection control, vital signs, patient positioning and transfers, patient care support procedures, phlebotomy and specimen collection, wound care, and EKG skills), preparing students for the Certified Patient Care Technician/Assistant (CPCT/A) exam issued by the National Healthcareer Association (NHA). Successful completion results in a Certificate of Completion. Graduates may qualify for entry-level roles such as Patient Care Technician, Clinical Assistant, Patient Care Assistant, or Patient Support Technician, subject to employer hiring standards and applicable state requirements.
