BASIC INFORMATION

Training Provider:		Detroit Training Center	
Training Program:		MIG Welding (Breithaupt)	
Training Location:	9300 Hubbell Detroit, MI 48228	Clinical Location: <i>If Applicable</i>	N/A
Phone Number:	313-221-5876	Website:	www.detroittraining.com

Description of Training Program:

This 180-hour program was created to prepare students with the skills necessary to be eligible to use welding equipment as well as obtaining credentials for industry-related careers. Students will have both lectured style teaching along with hands on training. The hands-on portion will include conducting MIG welds and demonstrating the difference between MIG Welding and ARC welds. Students will also learn job safety requirements per American Welding Society Welder Qualifications.

PROGRAM REQUIREMENTS

BASIC INFORMATION

Training Provider:		Emerging Industries Training Institute	
Training Program:		Renewable Energy	
Training Location:	5555 Conner, Suite 1646 Detroit, MI 48213	Clinical Location: <i>If Applicable</i>	N/A
Phone Number:	313-469-0581	Website:	www.trainandemploy.org

Description of Training Program:

The Renewable Energy training will instruct trainees to become solar technicians, capable of full install of solar technology on residential and commercial projects. As with our carpentry training, students will earn their core certification from the NCCR teaching them the basics of safety, tool use, employability skills, and material handling. Once core is completed, they will branch off into the NCCER Solar Photovoltaic Systems Installer (SPSI) curriculum to prepare them to test for their Photovoltaic Installation Certification. The way the class is delivered allows for every student to learn from a standard curriculum; moving in sequence as each module is successfully completed.

Description of Training Program:

The Welding hybrid curriculum features an accelerated curriculum that combines virtual learning online through simulations and multimedia and hands-on performance-based learning on real world manufacturing equipment. Students need to complete 127 online hours and 98 hands-on performance-based hours within the Learning Lab. The online hours can be completed at any time. Students only need to complete the safety units prior to beginning the hands-on performance-based hours in the Learning Lab; students can simultaneously complete both online and performance-based hours.

The curriculum is designed to prepare students to become entry level welders and is aligned to American Welding Society (AWS) SENSE Level I: Entry Level Welder standards.
